Sperm Banks Registered with The Center

The following sperm banks have been identified as meeting certain standards with regard to good practice in tissue banking and in the quality of service afforded their clients.

These banks vary in the kinds of donors they offer in terms of identity release, the donor's willingness to be known to your child in the future. These donors may be identified as: **Maybe donors** – possibly allowing contact after a child is 18yo., **Open donors** [aka: "Known", "ID Release" or "ID Consent"] – allowing some type of contact after a child is 18yo., or **Anonymous donors**.

You should select a bank from the following list and work directly with them to choose a donor. All banks have a variety of services they will offer you. After you have seen Dr. Jacob, please research the banks on-line and see what they have to offer.

		Identity Release?
Xytex Corp. 1100 Emmett St. Augusta, GA 30904	(800) 277-3210 www.xytex.com	All are "Maybe" donors, with some "ID Release" **Baby + Adult Pictures avail. \$165/ 3mo. access to all pictures + profiles.
