

Possibility Plan for New Patient Basic Assessment

Access to the care you need.

If you do not have insurance or have insurance but lack coverage for the diagnosis of infertility services and are concerned about the cost of the initial patient assessment, The Center for Advanced Reproductive Services has developed a New Patient Basic Assessment Case Rate. This Case Rate includes the procedures necessary to diagnose the causes of infertility and to develop a treatment plan specifically for you. Eligibility for this Case Rate is determined when our financial counselor verifies benefits with your insurance plan and it is determined that you do not have coverage for the services included in the Case Rate.

Do I Qualify?

To qualify for non-IVF Possibility Programs, patients must not have insurance; have insurance but lack infertility coverage; and have a household income (single or couple) of less than \$175,001.

All participants in any Possibility Plan must sign Possibility Plan Case Rate Waiver. All blood work must be drawn in Farmington, Hartford or Branford locations.

The \$600 Case Rate includes the following services:

- New patient office visit with MD
- New Patient Ultrasound
- Patient intake and review of medical history

New Patient Assessment Case Rate Does Not Include:

- Screening and infectious disease blood testing performed by third party lab. These are typically covered by insurance.
- Semen analysis which is typically covered by the male partners insurance
- Any additional testing

Imagine the possibilities...

Note: Prices subject to change.
The Center reserves right to end
program at any time.
