

IVF Possibility Plan

Access to the care you need.

The IVF Possibility Plan

In many cases, couples who want to have a baby are treated with in vitro fertilization (IVF). IVF is a process where eggs are retrieved from the woman and are combined with sperm in a laboratory. One or more embryos are then transferred to the woman's uterus. The Center for Advanced Reproductive Services (The Center) offers all of the services required for IVF as well as advanced procedures including intracytoplasmic sperm injection (ICSI), assisted hatching, and embryo cryopreservation.

During an IVF cycle, women are treated with medications to stimulate the development of multiple ovarian follicles to produce eggs for fertilization. The Center's medical team closely monitors this process using blood tests and ultrasounds. Mature eggs are retrieved using a surgical procedure with ultrasound. We then combine the retrieved eggs and sperm and transfer a limited number of embryos into the woman's uterus to achieve a pregnancy.

How the IVF Possibility Plan Works

The IVF Possibility Plan at The Center is open to all patients who do not have insurance coverage and qualify financially. The IVF Possibility Plan includes one price for all cycle monitoring (blood work and ultrasounds), IVF Teach Class, egg retrieval, anesthesia for the egg retrieval, embryo transfer, ICSI (if appropriate, on all eggs retrieved), assisted hatching, embryo cryopreservation.

Costs associated with the fertility work-up/checklist, diagnostic blood work and ultrasound, sonohystogram or HSG, outside monitoring, or medical treatment associated with an unsuccessful cycle (treatment for miscarriage, ectopic or biochemical pregnancy) are not included. Costs associated with oocyte, or sperm cryopreservation, TESA/MESA, cycle medications and PGD/PGS are also not included. However, through our specialized relationships you will have access to medication savings ranging from \$300-\$600 per cycle.

All participants in any Possibility Plan must sign Possibility Plan Case Rate Waiver.

All patients at The Center are treated by our outstanding team of physicians, nurses and other specially trained patient care professionals. To learn more, contact one of The Center's Financial Service Representatives in Farmington at 844.467.3483, Hartford at 860.525.8283 or Branford at 203.481.1707.

Imagine the possibilities...

The logo for the Center for Advanced Reproductive Services features a light blue oval background. The text "Center for Advanced Reproductive Services" is written in a blue serif font, with "Center for" in a smaller size above "Advanced", and "Reproductive Services" stacked below it.
